English

This game isn't what I expected. It's not fun. It's boring. The VR experience of CATAN VR is very dull and I thought it would let me pick up the catan game pieces Virtually, but it fails in that aspect. It's just a "POINT and CLICK" game but in a VR looking world. Did not enjoy. And I encountered a lot of old men who kept trying to talk with me and get personal information out of me. So not cool. I would rather play CATAN on my phone or the web browser version for the "POINT and CLICK" features. Do not buy this game.
