Click Me Free [Win/Mac] (Latest)

Click Me is designed to be a simple tool that allows you to play a joke on your friends. It works by detecting if the application or program that launched the app is of type "office" or "other". If the target program is of type "office" then it does nothing. If the target program is of type "other" then it prevents your mouse pointer from entering the target program, so that you cannot cancel the installation (and thus cannot click on "close"). Click Me Features: - Permanent monitoring of all clicks - Detects all double-clicks - Stop mouse cursor within target program - Cross-platform compatibility - No need to install software on your system - Comes with a launcher "Click Me Launcher" - No user interface - Runs on Windows 2000 and above. Click Me Disclaimer: No responsibility is taken for the damage caused by this software or the resulting consequences if this software is activated. This software is developed by: Tibor Novosálec Click Me Download Click Me v1.5 Click Me v1.5 description: Click Me v1.5 is a lightweight software application designed with a single goal in mind: to help you play a prank on your friends. This program can be run on all Windows platforms and displays a small window which reveals the "Click me..." message. Whenever you try to perform a single or double-click mouse operation on the panel, it automatically avoids the mouse pointer and places itself on another area of your screen. It's a never-ending chase after the "Click me..." panel, as you never get to click on it. The advantages of being portable Since this is a portable program, it is important to mention that it doesn't leave any traces in the Windows Registry. You can copy it on any USB flash drive or other devices, and take it with you whenever you need to play a joke on your friends or work colleagues the breeze, without having to go through installation steps. Simple-to-configure options Click Me doesn't offer support for a user interface in order to help you trigger the process. You need to perform a double-click operation on the EXE file every time you want to make the app to reveal the "Click me..." panel. The best part about is that you can run multiple instances
